SUMMARY

Frontend developer with 1.5+ years of experience building production websites, landing pages and CMS dashboards in Next.js, TypeScript, React and Tailwind CSS. Built a complete CMS admin dashboard and redesigned landing pages for several client products. Spent eight years in finance and pharmaceutical sales before switching to code in 2023, which brings strong client communication and a deadline-driven way of working.

EXPERIENCE

Frontend Developer, Plex Bit Infosystems Present

- Built the Paradise Hills Resort website and its admin dashboard entirely on my own (launching soon).
- Built the entire CMS admin dashboard that powers the company's new website, and about half of the site's frontend.
- Redesigned the landing pages for Plexler (an AI learning platform), Sierra Adventurer and Prabhu Adventure, plus reusable inner-page components for Prabhu.

Frontend Developer, Galli Maps Dec 2024 – Jun 2025

- Built the redesigned public website for Galli Maps, a Nepali maps app with 200K+ downloads.
- Built the internal admin dashboard the team uses to manage the website, in React and Tailwind CSS.
- Built Product Management, Order Processing and Bulk Message modules for the Nepal Dairy Project in Next.js.
- Worked closely with the backend team to integrate REST APIs.

Frontend Developer, Miracle Yard Jun 2024 – Sep 2024

- Migrated meromenu.com, a live restaurant management system, from Vue 2/Nuxt 2 to Vue 3/Nuxt 3 on my own, within my first year as a developer.
- Modernized the codebase for better performance and easier long-term maintenance.

Frontend Intern, Miracle Yard Nov 2023 – Feb 2024

- Supported senior developers in the early stages of a Vue 2 to Vue 3 migration.
- Learned component structure, routing and Git workflows on internal projects.

Earlier career (2014–2022): Account Officer, Max International · Medical Sales Officer, Omnica Laboratories · Territory Executive, Shree Om Brothers (Pfizer India)
